WE ARE STEEL

MISSION

We have one mission to accomplish: provide the very best solutions for satisfying the local and international market needs in design engineering, manufacturing and repair of capital goods, and industrial boilermaking; guaranteeing delivery times and complying with the highest quality standards.

VISION

At Moreypi, we are working hard for becoming the reference company in design engineering, manufacturing and repair of capital goods, industrial boilermaking; with the best standards of quality and commitment.

VALUES

Discipline, Commitment, Teamwork, Loyalty, Responsibility, Ethics, Harmony, Competence, Efficiency and Innovation.

INDUSTRIAL PROJECTS

Our company was founded in 1945, carrying out industrial projects, design and manufacture of capital goods, metal structures and, a wide diversity of industrial support services , in different industrial markets.

HISTORY

INDUSTRIAL MOREYPI was born by initiative of two entrepreneur families, More and Pineda families in 1945. They strongly believed in creating new opportunities for them and for the community. With this goal in mind, they created a small metal stamping company in Sotelo street, in Gijón, today Manuel Llana, prompted by the ongoing growth industrial market in Gijón.

Over time, we, Industrial Moreypi, have expanded our reach and our markets, creating value with our products.

Since the iron and steel revolution, we have experienced sustained growth, making incursion into the development of heavy and semi-heavy boilermaking projects; and what is our strength today: the manufacture of any kind of pressure vessels, heat exchangers and equipment; under ASME and European regulations. In Industrial Moreypi, we are committed with the market development, and we have adjusted to the market and our customers needs, becoming into the best reference in the Metal sector.

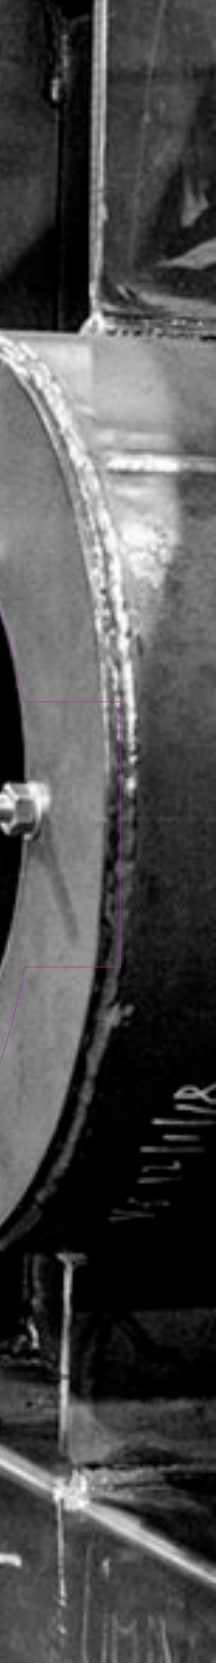

1945

In Industrial MOREYPI, our team is deeply committed with the work and the desire to excel every single day, this excellent performance can only be achieved through team effort. With this in mind, we strive to bring together professionals with extensive proven experience, and very well trained talent to undertake specialized projects.

MATERIALS

Among the materials which we usually work with:

- CARBON STEELS (STD, HIGH ELASTIC LIMIT, ACID SERVICE, LOW TEMPERATURE, ETC.)
- HASTELLOY
- MONEL
- STAINLESS STEELS
- CHROME-MOLYBDENUM STEELS (1 1/4 CR - 2 1/4 CR)
- NICKEL STEELS
- CLADPLATE
- INCONEL
- WELD OVERLAY (SAW, SMAW, ESW)
- INCOLLOY
- DUPLEX AND SUPER-DUPLEX

CERTIFICATIONS

Since INDUSTRIAL MOREYPI was founded, one of our greatest concerns lies in the quality of our work, and offering a ceaseless service to the client.

Bearing this in mind, we have got the three Quality Management Systems approved by Bureau Veritas in accordance with the standard UNE EN ISO 9001: 2015, UNE EN ISO 14001: 2015 and ISO 45001: 2008

Furthermore, we have obtained registration in REPRO (Registry of Suppliers) and we have the authorization of the Regional Office of the Principality of Asturias for the manufacture of pressure goods.

Additionally, we have also the S, U and U2 certifications issued by ASME INTERNATIONAL for the Manufacture and Assembly of Pressure

Vessels in accordance with THE ASME BOILER & PRESSURE VESSEL CODE SECTION I and VIII DIVISION 1 and 2, as well as the "R" certification for repairs of equipments under the same standard.

In addition, we have the Certification EN 1090-1 (EXC 4.) Execution of steel and aluminum structures-Part 1: Requirements for the evaluation of the conformity of structural components, as well as ISO 3834 for welding.

All our production is carried out according to national and international codes and norms such as UNE, DIN, ASTM, ASME, BS, TOPIC, AFNOR, API, etc.

REFERENCES

We are qualified, based on our flexible structure and the group of companies we belong, to carry on from small boiler works to large turnkey projects; for which we have the required technical means.

We seek an agile, fast and constant response to the needs of our customers, thus achieving quality products and services, always meeting the deadlines.
